

# Telescoping Mast Installation

Dr. John A. Allocca, WB2LUA  
[www.WB2LUA.com](http://www.WB2LUA.com)  
7/14/26

1. Mount the bottom 3 leg wall mount bracket with the 3 inch screws.
2. Dig a hole a few inches deep and allow the mast to sink into it.

**3. Cover the whole with soil.**

4. Loosely attach the top wall mount to the bottom part of the mast.
5. Using a level, position the top wall mount bracket so that it is plump.
6. Mount the brakes with the 3 inch screws.

**7. Mount the antenna to the top section of the telescoping mast.**

**8. Extend the telescoping mast and attach the cable using twist ties.**

**View of the antenna and mast extended. The very top section was not extended in order to provide better stability.**

**View of the antenna mast from a distance.**
